

2018 OHIO NWTF Buckeye Challenge Callmaking World Championship January 13th, 2018 2018 Rules, Announcements, and Categories (Open to all call makers)

CHARTER

The basis for this competition is to determine each call's stand-alone merit of how well it performs in the hands of a hunter. The judges of this competition will be a qualified panel of experienced turkey hunters who will grade each call on the prescribed criteria. Please note that this is not a contest to determine who the best caller is, rather it is a contest to determine the best call in each specific category.

While it is expected that call makers can run their own calls with great precision, the question with turkey hunters is, how simple or easy the turkey call is to use and how much does it sound like a turkey. In determining and selecting the best hunting turkey call each year, the NWTF strives to ensure fairness and impartiality without prejudice towards commercial or custom call makers or with the design of any call entered in the hunting call competition. Criteria for determining and selecting the best call places equal emphasis on sound quality and tone, ease of use, versatility and its ability in attaining what is commonly referred to as a break over. (Crow and Locater calls will be judged a bit differently).

I. ANNOUNCEMENTS AND RULES

The purpose of the hunting call competition is to select the most consistent, user friendly and best sounding calls. Entry into the event is open to commercially manufactured or custom, handmade or hand tuned calls. In addition, the 2018 NWTF Ohio Best of Show and Best of Hunting Class Call Makers will be recognized, as well as Youth Callmaker of the Year.

Six (6) selected entries will be sold at the 2018 Ohio NWTF State Convention on a 50/50 split (unless entry fee waiver is elected for 100% donation). We will also have entries posted for sale on eBay. The 50/50 split entitles the call maker to 50% of the final sale price and the remaining 50% goes to support the NWTF Ohio State Chapter. Name recognition and competition placement (if applicable) will be displayed with each entry that's for sale at the convention and on all eBay listings. All call makers must submit a brief description of the call they are entering. Information must include the call makers name and address along with a description of call including types of material used in the call and any information that will enhance the sale of the call at Auction and on eBay. Information should be submitted on a 5" x 7" note card or a half-page maximum. Call makers wishing to purchase their calls

back from OH NWTF may place a reserve bid on their calls. If at auction the call does not reach the reserve bid the maker can buy the call for that price. This must be noted on the registration form.
